## Mr. Harshad Desai

**Chairman – Consultant Clinic**

**Email:** [harshadjayshree@hotmail.com](mailto:harshadjayshree@hotmail.com)

Experience in plastic field for more than 50 years. Very Knowledgeable about Blow Moulding and Injection Moulding field. He was an Executive Director of Clear Mi- pack packaging Ltd (Now Hi-tech Plast Ltd). Have handled all types of plastic processing activities such as ISBM, IBM and printing, decoration and value additions for plastic products. He is also very knowledgeable from Die making to production and planning. Have established factories in many parts of India.

Presently active as chairman of AIPMA Seminar Committee and Chairman for Consultant Committee Plastivision Arabia.

Currently he is an Business Advisor to Bloom Seal Containers Pvt Ltd.

**Consultant:** Environmentalist

**Email:** [pjussawalla@gmail.com](mailto:pjussawalla@gmail.com)

## Mr. Pervez. E. Jussawalla

Manufacturer of Waste Management Equipment, Small Hydraulic Presses, Servo Presses. Plastic Blow and Stretch Blow moulding Consultancy.

40 years of Experience in design and manufacture of plastic Blow moulding, and PET stretch blow moulding machinery.

Proprietor of M/s Ahura Industrial Engineers and former technical director , Sidel India Pvt. Ltd. Presently manufacturing Waste Compacting and Crushing machinery.under the brand name of BIOPLAST.

**Consultant:** Project Planning & Implementation,  
Water Cooling Designing & Optimization,  
Trouble shooting Expert  
Email : [kankuenterprises@hotmail.com](mailto:kankuenterprises@hotmail.com)

## Mr. Mayur. K. Shah

Having more then 3 decades of Experience in Injection Moulding of Plastics, Project Planning and Implementation.

Over a period of time with increasing experience it was realized that the Plastic Moulding Industries' productivity can be substantially increased by incorporating efficient cooling.

Unfortunately, no such service was available for plastic industry up till now. The tedious process of calculating flow and pressure at every node along with the frictional losses and maintaining Reynold's number for turbulent flow is taken care with the help of computer and advance software.

Presently involved in **Water Cooling Designing and Optimization for Plastic Processing Plants**

## Mr. Rajesh Doshi

**Consultant** : Business Development Expert in Processing of PVC & Engineering Polymers  
Email : [rajeshdoshi56@gmail.com](mailto:rajeshdoshi56@gmail.com)

He has more than 35 Years of diversified experience in the field of processing of plastics. He has worked with various engineering polymers for segments like Automotive, White goods, Medical, electrical and engineering application.

He has been instrumental and responsible for promoting new business of engineering polymers and technical support on PAN India basis.

He is having expertise in PVC compounding and processing, specifically calendaring injection moulding and extrusion.

- Process optimization in injection molding, extrusion, blow molding, compounding with new molds and product applications.
- Product development ,mould development and validation.
- Educating, motivating and enforcing effective preventive maintenance practices.
- Ed

stries ,

**Consultant : Industry 4.0 Expert**  
Email : [viresh.s@bricspac.com](mailto:viresh.s@bricspac.com)

## Mr. Viresh Sheth

As a founder of the leading packaging material and machinery solutions provider in India, Viresh Sheth has been a packaging developing partner to many leading brand. With an extensive experience of over 35 years in all kinds of packaging needs and challenges his knowledge encompasses all the aspects of bringing a brand and a product to life.

An avid traveller he realised importance of Industry 4.0 in Indian context and challenges to implement is far more challenging than one thought hence he formed Bricspac India Private limited which is a unique platform for interested industry people who wish to know more about how Industry 4.0 solutions can turn them from **'Traditional manufacturing'** to **'Smart manufacturing'**

## Mr. Sanjeev Bhatt

Having more than 25 years of Experience in **Plastics and packaging In India and international.** Specialized and trained in **Injection Moulding and Extrude Machineries in Europe** (Netstal , Krauss Maffei Group including Berstoff )

Able to Handle Any type of **Green field Projects in plastics and packaging industries** (which includes Selection of machines , layout, Offloading , Positioning , achieving production, CIP, OEE and quality assurance)

Specialized for **Caps and Closer , IML** ( Thin wall Injection Machineries - Netstal Machinen AG-Switzerland), **Medical Industries** (petridish, Micro Tip, Pasteur Pipette, etc), **Technical products, Auto Mobile Industries.** ( Vacuum Metallizing )

Specialized in **PET Industries.**

**Industrial Automation**( Baumuller, LTi, Kollmorgen, Bouch Hydraulics (Eco Power Unit), All Electrical Machine, Servo controls etc... )

**Quality Assurance and Technical Analytical analysis..** Including Process Solutions.

**Consultant** : 3D Printing Technology Expert

Email: [sagar.deshmukh@zpro.co.in](mailto:sagar.deshmukh@zpro.co.in)

[sjs3dprinting@gmail.com](mailto:sjs3dprinting@gmail.com)

## Mr. Sagar Deshmukh

Sagar is an engineer by profession with the flair for technology. He has total 14 years of industrial experience in the field of business development with Global Brands like , **SIEMENS** and **IMI- Precision Engineering**.

Sagar is a **3D printing consultant** and manufactures **FDM 3D printers** at their **Pune facility**.

He has a vision of becoming **India's biggest 3D printing company** producing jobs for at least **10,000 people**.

Sagar believes in **Giver's Gain Philosophy** and he is a member of World's Largest Referral Organization – **BNI** (Business Network International)

Currently he is **leading a group of 80 Entrepreneurs** as a **President of BNI- Harmony Chapter**.

## Mr. Vivek Jain

He is a certified Six Sigma engineer with Black Belt holder. He is having an experience of more than twelve years in guiding industry in their Process Control. He has a good knowledge on controlling Static Energy in the process and suggesting the right method with correct product. Further, he has been guiding people to select the right tool for plastic nipping and designing the best possible End of the Arm Tooling (EOAT). Further, he has a good knowledge on Robot Integration. He has done more than 100 projects for robot integration along with implementing the automation of post moulding process through robot. He has been also enriching the industry to select the best possible assembly solution by selecting the right tool to avoid damaging the screws and the component. His educational qualification is B.E. (Electronics). He has an exposure of many industries all over India with their vivid processes. He has been guiding various industries like automobile, appliances, mobile phones, wind mill, Solar cell and CD manufacturing, packaging and printing industry, LED light, switch gears, etc.

## Dr. Sanjay Pandya

Dr. Sanjay Pandya is an Engineering Graduate from Gujarat University and MBA from Mumbai. He has completed his Doctorate research in Human Resource Development. He is a leading Corporate HRD Trainer, in the fields of Plastic Moulding Process and Productivity Improvement System in the area of soft skills, behavioural and leadership. His programs are regularly updated based on modern research on behavioral science.

His programs have been appreciated and attended by companies like Reliance Industries Ltd, Hazira, Gujarat Ambuja, GSFC, Vasushara Dairy, Bilag, Microinks, Torrent Power and many other segments.. His training program is also appreciated by learning institute and academics like Institute of labour Development, ICFAI Business school, Pacific Institute of Management and many.
